Business Symposium attendees will all receive the complete Executive Summary of the 8 sector research studies being presented on October 28.

Supported by the Snohomish County 2010 Blueprint Partners

Snohomish County Economic Development Council, Snohomish County Workforce Development Council, Edmonds Community College, Everett Community College, Cascadia Community College, University of Washington-Bothell, Central Washington University, Western Washington University, Snohomish County K-12 School Districts, and Snohomish County Government.

Have your voice heard as investments are made in training for a skilled Snohomish County workforce. If you think finding good employees is tough now, just wait! According to the new research, over the next 2 years, it may be much more difficult.

Influence education, federal funding, and Snohomish County planning by attending this interactive, informative and industry focused event. See what the future holds, know the trends and the demands within your industry. Business sectors to be discussed include: Manufacturing, Construction, Healthcare, Tourism & Hospitality, Business Services, Education, Government, and Biotechnology.

“The economic vitality and stability of Snohomish County depends largely on the ability of our local businesses to identify growth opportunities, find and retain workers, and remain competitive. This research provides the type of information required to make those decisions. All business owners, CEO’s and business advisors should have it.”

Deborah Knutson, President, EDC of Snohomish County
